- Guide bars ensure movement is in **one direction only**.
- **Locking positions** located at every 2 inches.
- 4 spring-loaded **safety blocks** maintain load on loss of air pressure.
- Guide bars made of 1 1/2" steel on a W-K 6000 to a W-K 25000 jack and 1 3/4" for a W-K 35000 and above.

- Constructed of a dense rubber, reinforced by steel and supported by steel plates on both contact ends giving bellow **durability and consistency**.
- Air-only design ensures **no messy oil spills** that are typical of the traditional hydraulic systems.
- **Environmentally friendly**.

- Adapters can be arranged or stacked in various combinations to **directly engage with the vehicle**.
- **Arms can be extended** outwards to increase the lifting range (see specs. on back page).
- Arm adapters are **"pin-locked"** into arm for added safety.
- Adapters can be **customized in-house** to match unique pick-up points on any vehicle.

- Wheel assemblies are **fixed into place with high-grade bolts** to keep the jack securely on the hoist rails.

- Air bellow is **completely enclosed** and protected in a **steel shell** from surrounding work (eg. welding, cutting torches, sharp objects etc.).

- **Safety stickers** and capacities are clearly visible.

- Wheel assemblies can be customized in-house to **fit any 4-post hoist or pit**

- Three-way spring loaded air valve providing a completely **non-spark design** (no electric parts).

- Easy to use **unlocking system** requires a **2-handed operation** to ensure that hands are always in a **safe position** when operating the jack.

- Rail design allows jack to move freely on the runway and locks the jack into place when lifting making the whole unit **motionless and secure**.

## Air-Up Series Jacks

**A TRUE 'GREEN' PRODUCT**  
Environmentally Friendly

The Air-Up jack operation is "all-air", using no hydraulics. This ensures that there are no messy oil spills to clean up which allows for a safer working environment, a reduction in accidents, reduction downtime, and overall - environmentally friendly.

### ADAPTABILITY TO ALL HOISTS AND PITS

The "Air-Up" series of jacks can be modified to fit any 4-post hoist or pit. The jacks have been installed and are operating successfully for more than 16 years on the following 4 post hoists:

ACANUS	BRADBURY	GRAND	MOHAWK
ACU-LIFT	CHALLENGER	HENNESSY/AMMCO	OMAR
ALM	CUNNINGHAM	HOFFMAN	ROTARY
AMERICAN	FMC	HUNTER	SPACE SAVER
BAYMATE	FORWARD	HYDRA	STEN HOJ
BEN PEARSON	GEMINI	LESCO	WHEELTRONIC
BEND-PAK (PRO-LIFT)	GIROLIFT	LINCOLN	WORTHINTON
BENWIL	GLOBE	MALCAN	AND MANY MORE..
